

Pranav K Dileep

Computer Science & Cyber Security Student

Thrissur, India | pranavkdileepme@gmail.com | 095440 47655 | linkedin.com/in/pranavkdileep
github.com/pranavkdileep

Summary

Computer Science and Cyber Security student passionate about building secure, scalable systems. Experienced in developing websites and Android applications. Strong interest in backend engineering, networking, and security research, with the ability to learn new technologies quickly.

Education

University College of Engineering, Thodupuzha, B.Tech in Cyber Security – Kerala, India Aug 2022 – May 2026

- CGPA: 7.96 / 10

Higher Secondary Education (12th – Computer Science), Higher Secondary in Computer Science – Kerala, India June 2020 – Mar 2022

- Percentage: 82%

Experience

Developer and Maintainer, ktucyber.com Jan 2023 – present

- Lead full-stack development of the platform, ensuring a seamless user experience and robust backend functionality.
- Managed cloud infrastructure and deployment pipelines, utilizing cloud storage solutions for efficient resource hosting.
- Configured and maintained email delivery systems and optimized database management for high availability.
- Implemented SEO strategies and marketing initiatives to drive user growth and platform visibility.
- Established comprehensive system monitoring, automated backup management, and rigorous testing workflows to ensure stability.

Projects

Study Note AI Agent Feb 2025 – present

- Developed an AI agent to generate comprehensive study notes from textbooks and images using OpenAI LLMs.
- Integrated DeepSeek OCR for high-accuracy parsing of complex textbook layouts and document images.
- Utilized Vectorless RAG for document indexing and management to streamline the note-generation workflow.
- Link: <https://www.ktucyber.com/agents>

Deployer Jan 2025 – present

- Self-hosted Docker-based hosting control panel to manage web applications, services, databases, SSL certificates, logs, and deployments from a clean web UI.
- Utilized Docker and Nix build to build container images.
- Open-source project with 30+ GitHub stars
- GitHub: <https://github.com/pranavkdileep/Deployer>

DDoS Attack Detection Using Hybrid Deep Learning Model

Jan 2025 – Jan 2025

- Implemented a hybrid deep learning model using TensorFlow for detecting DDoS attacks in network traffic.
- Built a CICFlowMeter in Go for real-time network flow monitoring on servers
- GitHub: <https://github.com/pranavkdileep/CICFlowMeter-Go>

Real-Time Bus Tracker with GPS

Jan 2025 – Jan 2025

- End-to-end real-time bus location tracking system with Android apps, backend services, and custom IoT hardware.
- User and conductor Android apps built with Kotlin & Jetpack Compose
- Custom IoT tracking device using ESP8266 and GPS module
- WebSocket for real-time location updates

TeachersDiary

Jan 2025 – Jan 2025

- Web-based system for teachers to manage daily activities and attendance.
- Role-based dashboards for Teachers, HOD, and Principal
- Implemented attendance tracking and reporting
- GitHub: <https://github.com/pranavkdileep/TeachersDiary>

KTUcyber.com

Jan 2024 – Jan 2024

- Community platform for students to share study materials and collaborate.
- Authentication, email verification, CRUD operations
- Bookmarking and follow/following system
- GitHub: <https://github.com/pranavkdileep/ktucyber2.0>

TK-VPN

Jan 2023 – Jan 2023

- Android VPN application built using OpenVPN, focused on simplicity and ease of use.
- Built in Java using OpenVPN core
- App Store: <https://apps.samsung.com/appquery/appDetail.as?appId=com.pranavkd.freevpn>

Skills

Programming & Tools: Python, C++ , Go, Java, JavaScript, TypeScript, Git, strong backend and systems programming knowledge

Cloud & DevOps: Docker, self-hosted infrastructure, backend deployment, service monitoring, containerized environments

Cyber Security & Networking: Network traffic analysis, DDoS detection, CICFlowMeter, secure system design, server monitoring

Mathematics: Differential equations, calculus, linear algebra

Languages: English and Malayalam (read, write, speak)
